

Cetavlex Abbreviated Prescribing Information

Presentation: A white cream containing Cetrimide 0.5% w/w. **Uses:** An antiseptic cream for skin disorders such as minor wounds, minor burns and abrasions and napkin rash. **Dosage:** Apply liberally to the affected area. In some cases it may be necessary to cover the wound or burn with a clean dressing. **Contraindications:** Hypersensitivity to any of the ingredients including Cetrimide. **Warnings and Precautions:** If no improvement or there is aggravation, use should be discontinued and a physician consulted. For topical application only. Keep out of the eyes and ears. Instruct patients not to smoke or go near naked flames – risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard. Washing clothing and bedding may reduce product build-up but not totally remove it. **Side Effects:** Side effects include allergic reactions and local irritation. **Pharmaceutical Precautions:** Store below 30°C. **Package Quantities:** 50g tube **Basic NHS Price:** 50g £2.80. **Legal Category:** GSL. **Marketing Authorisation Number:** PL 19876/0011. **Marketing Authorisation Holder:** Derma UK Ltd, The Toffee Factory, Lower Steenbergs Yard, Ouseburn, Newcastle upon Tyne NE1 2DF, UK. “Cetavlex” and “Derma UK” are registered Trade Marks. **Date of Revision of Text:** January 2024

Please refer to the full SPC text before prescribing this product. Adverse events should be reported. Information about adverse event reporting can be found at www.mhra.gov.uk/yellowcard. Adverse events should also be reported to Derma UK Ltd, UK on 0191 375 9020.
